Section 1: Sanlam Umbrella Fund

# Default investment strategy

Sanlam Lifestage

# Sanlam Lifestage

## Mandate description

Sanlam Lifestage is the Fund's trustee approved default investment strategy and aims to meet each member's savings requirement by working towards a target date, which would be the Normal Retirement Age or the Planned Retirement Age (if different).

## How Sanlam Lifestage works

The investment strategy consists of two phases and members are automatically switched from one phase to another as they near retirement. The two phases are:

- Accumulation phase
- Preservation phase

As retirement approaches, this target date strategy invests in an investment portfolio matching the member's postretirement needs or plans, but in the years prior to this greater emphasis is placed on achieving capital growth. Members with more than 6 years before reaching their Normal Retirement Age or Planned Retirement Age (if different) are fully invested in the Sanlam Lifestage Accumulation Portfolio which aims to achieve capital growth. Six years (72 months) before a member reaches his/her Normal Retirement Age or Planned Retirement Age (if different), the member is gradually switched from the Sanlam Lifestage Accumulation Portfolio to his/her selected Sanlam Lifestage preservation portfolio by means of 50 monthly switches.

Members with more than 6 years before reaching their Planned Retirement Age are fully invested in Sanlam Lifestage Accumulation Portfolio which aims to achieve capital growth.

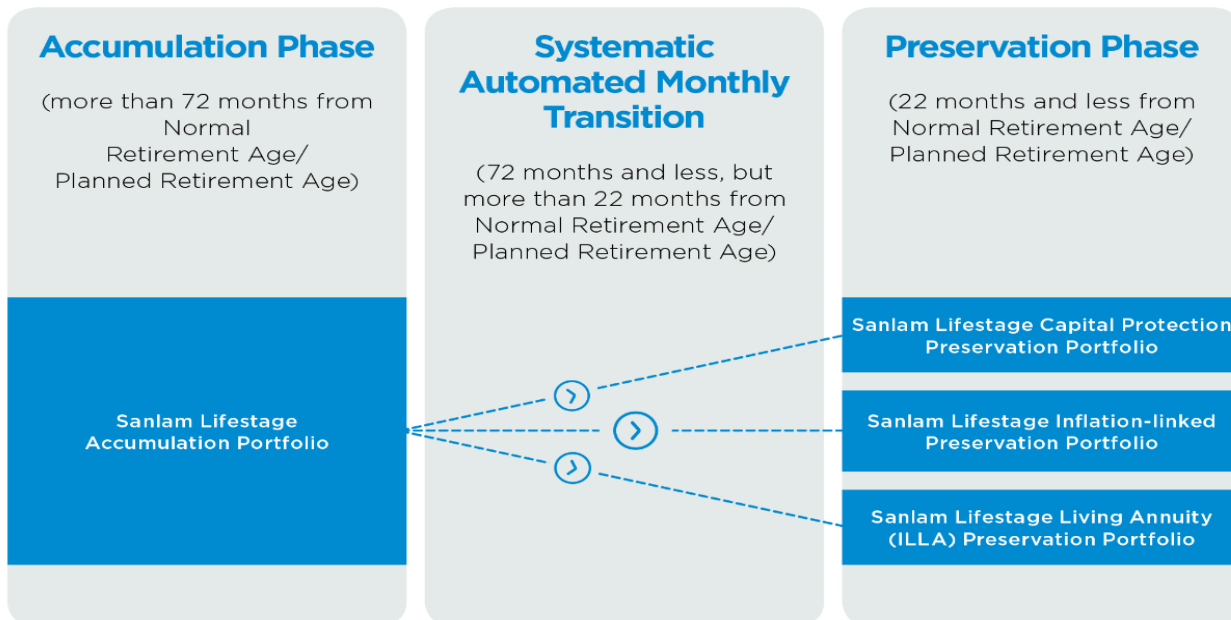

Six years (72 months) before a member reaches his/her Planned Retirement Age, the member is gradually switched from the Sanlam Lifestage Accumulation Portfolio to his/her selected Sanlam Lifestage preservation portfolio by means of 50 monthly switches.

## Fund performance

Phase	1 month	3 months	1 year	3 years
<b>Accumulation Portfolio</b>	-1,8%	-4,1%	11,0%	5,7%
<b>Preservation Portfolios:</b>				
<b>Capital Protection</b>	0,7%	2,3%	8,4%	9,5%
<b>Inflation-Linked</b>	0,9%	4,7%	-0,8%	3,4%
<b>Living annuity (ILLA)</b>	-0,3%	-0,6%	10,2%	7,0%

### Please note:

Sanlam Lifestage investment reporting only commences from 1 August 2013, but the following longer term performance was achieved applicable to members previously invested in the Accumulation Phase of the Sanlam Umbrella Fund's discontinued Lifestage Programme, and whose investments were transitioned to Sanlam Lifestage during the month of July 2013.

**Note:** Performance figures are gross of investment management fees, but are net of any performance fees (if applicable). For portfolios in the Smoothed Bonus Range, the returns are gross of investment management fees, but are net of any guarantee premiums. Performance figures for periods greater than 12 months are annualised. All data shown is at the month-end, unless specifically indicated differently. Changes in currency rates of exchange may cause the value of your investment to fluctuate. Past performance is not necessarily a guide to the future returns. The value of investments and the income from them may increase or decrease and are not guaranteed. You may not get back the amount you invest. The product information sheets are prepared for the SANLAM UMBRELLA FUND by its investment consultants. The product information sheets are prepared in good faith and the information, data and opinions contained in the product information sheets are based on source information considered reliable. However, no guarantee, explicit or otherwise are provided that the information and data contained therein are correct and comprehensive. The SANLAM UMBRELLA FUND and the investment consultants cannot be held liable for any loss, expense and/or damage following from the use of the product information sheets.

# Sanlam Lifestage Accumulation Portfolio

**Period Ending** 28-Feb-18  
**Fund Size** R 10 371 million  
**Inception Date** Jul-13

## Fund objective

The fund is an aggressive portfolio displaying high levels of volatility over the short term and is aiming to provide market related growth. Scrip lending may be performed on the passive equity component.

## Risk profile

This portfolio has an moderate-aggressive risk profile

## Fees

1.00% per annum for the first R50m  
 0.90% per annum on the portion of assets between R50m - R100m  
 0.775% per annum on the portion of assets between R100m – R300m  
 0.70% per annum on the portion of assets between R300m – R500m  
 0.65% per annum on the portion above R500m

All Sub-funds invested in Sanlam Lifestage Accumulation Portfolio are charged the highest investment management fee applicable to the first tranche of assets, and Sub-funds with greater than R50 million assets are separately rebated any savings due to the sliding investment management fee scale on a monthly basis. The underlying investment managers may be incentivised on a performance fee basis.

Section 2: Sanlam Umbrella Fund

# Alternate default investment strategy

**Volatility Protection Strategy**

# Volatility Protection Strategy

## Mandate description

The trustees have approved an alternative default investment strategy suitable for members who wish to achieve inflation beating real returns over the medium to long term, but who are particularly concerned about protecting against significant short term investment losses. The strategy will most likely result in lower returns than the Sanlam Lifestage over the long term as a consequence of the implicit cost of the underlying guarantees and lower effective equity exposure. Nonetheless, the trustees recognise that such a strategy is suitable for many members – particularly those members who are not financially sophisticated and who might not appreciate that a high equity exposure inevitably implies some risk of capital loss over the short-term.

The trustees have agreed the following objectives for the Volatility Protection Strategy:

- An investment return of CPI + 3% net of fees over any 3 year rolling period (i.e. long term, inflation-beating returns);
- Aim to prevent capital loss not greater than 10% in any 12 month rolling period or 5% in any one month (i.e. protection against significant short term losses);
- "Volatility Protection" does not necessarily imply a 100% capital guarantee (however still structured to protect assets against significant losses).

The trustees review the investment strategy of the Volatility Protection Strategy continually, and will make periodic changes to the underlying investments in line with the objectives of the strategy. The Volatility Protection Strategy has historically invested contributions in the Sanlam Monthly Bonus Fund, but in early 2017 has commenced the process of investing new cash flows in the Satrix (SWIX) Balanced Tracker Fund with the intention that over time the Volatility Protection Strategy will be invested 75% in the Sanlam Monthly Bonus Fund and 25% in the Satrix (SWIX) Balanced Tracker Fund.

# Sanlam Monthly Bonus Fund

**Period Ending** 28-Feb-18  
**Fund Size (Book Value)** R7 213 million  
**Inception Date** Jul-99

## Fund objective

The Monthly Bonus Fund (MBF) protects investors against short-term volatility by smoothing out investment returns, whilst providing valuable guarantees on benefit payments. The underlying portfolio is mandated with more weight to less risky asset classes than a typical balanced fund. The Sanlam Monthly Bonus Fund offers 100% capital guarantee and fully vesting bonuses. Fully vesting bonuses are declared monthly in advance.

# Satrix (SWIX) Balanced Tracker Fund

**Period Ending** 28-Feb-18  
**Fund Size** R 1 292 million  
**Inception Date** Sep-08

## Fund objective

The portfolio invests in tracker equity and bond indices, locally and abroad, and also cash to create a moderate risk balanced portfolio which is expected to perform close to the underlying indices without incurring active management costs. Scrip lending may be performed on the passive equity component.

## Risk Profile

This fund has a moderate-aggressive risk profile

## Fees

**On South African assets:**

0,38% per annum

**On International assets:**

0,30% per annum on international equities, and

0,25% per annum on international interest bearing assets

The domestic equity component tracks the SWIX Index. Script lending is permitted in respect of this basket of shares, and the resultant income (net of associated costs) is periodically rebated to clients participating in this portfolio, and effectively serves to reduce the quoted management fee.

Section 3: Sanlam Umbrella Fund

# **2<sup>nd</sup> Alternate default investment strategy**

**Passive Lifestage Strategy**

# Passive Lifestage Strategy

## Mandate description

The core objective of this alternative default investment strategy aims to meet each member's savings requirement by working towards a target date, which would be the Normal Retirement.

## How the Passive Lifestage Strategy works

The investment strategy consists of two phases and members are automatically switched from one phase to another as they near retirement. The two phases are:

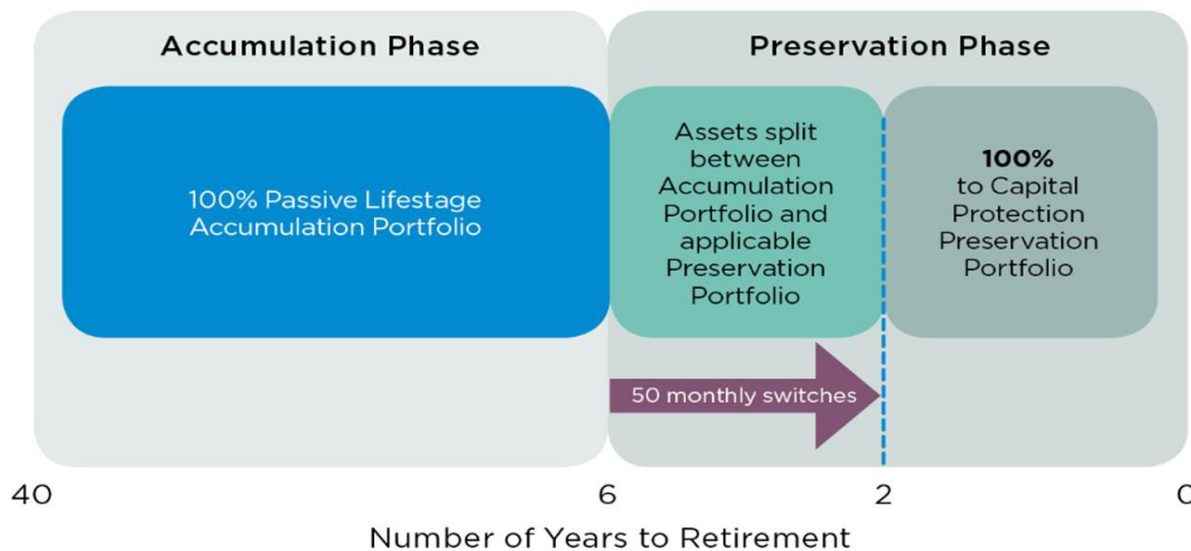

- Accumulation phase
- Preservation phase

As retirement approaches, this target date strategy invests in an investment portfolio that provides inflation beating returns with a 100% guarantee on the capital invested, but in the years prior to this greater emphasis is placed on achieving capital growth. Members with more than 6 years before reaching their Normal Retirement Age or Planned Retirement Age (if different) are fully invested in the Passive Lifestage Accumulation Portfolio which aims to achieve capital growth. Six years (72 months) before a member reaches his/her Normal Retirement Age or Planned Retirement Age (if different), the member is gradually switched from the Passive Lifestage Accumulation Portfolio to the Capital Protection Preservation Portfolio by means of 50 monthly switches.

The Passive Lifestage Accumulation Portfolio invests in the SATRIX (SWIX) Balanced Tracker Fund.

## Fund performance

Phase	1 month	3 months	1 year	3 years	5 years
<b>Accumulation Portfolio</b>	-1,2%	-2,9%	11,7%	6,7%	11,6%
<b>Preservation Portfolios:</b>					
<b>Capital Protection</b>	0,7%	2,3%	8,4%	9,5%	n/a

**Note:** Performance figures are gross of investment management fees, but are net of any performance fees (if applicable). For portfolios in the Smoothed Bonus Range, the returns are gross of investment management fees, but are net of any guarantee premiums. Performance figures for periods greater than 12 months are annualised. All data shown is at the month-end, unless specifically indicated differently. Changes in currency rates of exchange may cause the value of your investment to fluctuate. Past performance is not necessarily a guide to the future returns. The value of investments and the income from them may increase or decrease and are not guaranteed. You may not get back the amount you invest. The product information sheets are prepared for the SANLAM UMBRELLA FUND by its investment consultants. The product information sheets are prepared in good faith and the information, data and opinions contained in the product information sheets are based on source information considered reliable. # Satrix (SWIX) Balanced Tracker Fund

**Period Ending** 28-Feb-18  
**Fund Size** R 1 292 million  
**Inception Date** Sep-08

## Fund objective

The portfolio invests in tracker equity and bond indices, locally and abroad, and also cash to create a moderate risk balanced portfolio which is expected to perform close to the underlying indices without incurring active management costs. Scrip lending may be performed on the passive equity component.

## Risk Profile

This fund has a moderate-aggressive risk profile

## Fees

**On South African assets:**

0,38% per annum

**On International assets:**

0,30% per annum on international equities, and

0,25% per annum on international interest bearing assets

The domestic equity component tracks the SWIX Index. Script lending is permitted in respect of this basket of shares, and the resultant income (net of associated costs) is periodically rebated to clients participating in this portfolio, and effectively serves to reduce the quoted management fee.

# Capital Protection Preservation Portfolio

**Period Ending** 28-Feb-18  
**Fund Size (Book Value)** 1828 million  
**Inception Date** Aug-13

## Fund objective

The Portfolio offers investors stable, smoothed returns with a partial guarantee on benefit payments. A bonus, which consists of a vesting and non-vesting component is declared monthly in advance. Bonuses cannot be negative. The portfolio offers 100% capital guarantee and partially vesting bonuses.

## Risk profile

The portfolio has a conservative risk profile

## Fees

Sanlam's cost in relation to the investment plan is recouped by recovering the following fees:

**Investment Management Fees:**

0.425% per annum

**Guarantee Premium:**

A guarantee premium of 0.90% per annum

**Annual Performance Linked Fee:**

The investment manager may be incentivised with performance fees (capped at 0.30% p.a.)

Section 4: Sanlam Umbrella Fund

# **3rd Alternate default investment strategy**

**Sanlam Blue Lifestage Strategy**

# Sanlam Blue Lifestage Strategy

## Mandate description

The core objective of this alternative default investment strategy aims to meet each member's savings requirement by working towards a target date, which would be the Normal Retirement.

## How the Sanlam Blue Lifestage Strategy works

The investment strategy consists of two phases and members are automatically switched from one phase to another as they near retirement. The two phases are:

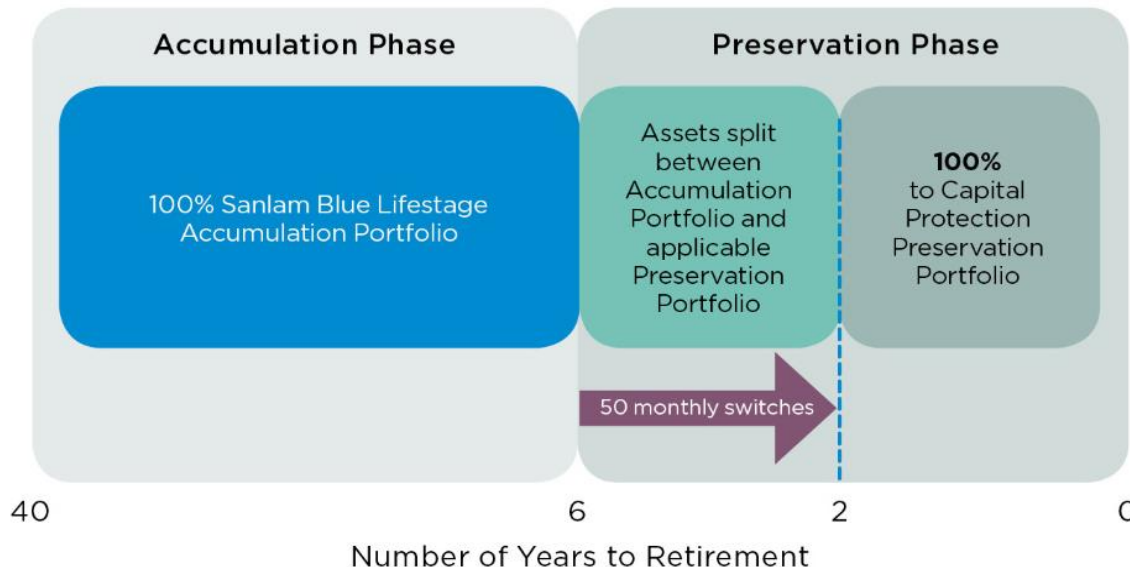

- Accumulation phase
- Preservation phase

As retirement approaches, this target date strategy invests in an investment portfolio that provides inflation beating returns with a 100% guarantee on the capital invested, but in the years prior to this greater emphasis is placed on achieving capital growth. Members with more than 6 years before reaching their Normal Retirement Age or Planned Retirement Age (if different) are fully invested in the Sanlam Blue Lifestage Accumulation Portfolio which aims to achieve capital growth. Six years (72 months) before a member reaches his/her Normal Retirement Age or Planned Retirement Age (if different), the member is gradually switched from the Sanlam Blue Lifestage Accumulation Portfolio to the Capital Protection Preservation Portfolio by means of 50 monthly switches.

The Sanlam Blue Lifestage Accumulation Portfolio invests in the SIM Balanced Fund.

## Fund performance

Phase	1 month	3 months	1 Year	3 years	5 years
<b>Accumulation Portfolio</b>	-1,8%	-3,3%	9,1%	6,2%	10,4%
<b>Preservation Portfolios:</b>					
<b>Capital Protection</b>	0,7%	2,3%	8,4%	9,5%	n/a

**Note:** Performance figures are gross of investment management fees, but are net of any performance fees (if applicable). For portfolios in the Smoothed Bonus Range, the returns are gross of investment management fees, but are net of any guarantee premiums. Performance figures for periods greater than 12 months are annualised. All data shown is at the month-end, unless specifically indicated differently. Changes in currency rates of exchange may cause the value of your investment to fluctuate. Past performance is not necessarily a guide to the future returns. # SIM Inflation Plus Fund

**Period Ending** 28-Feb-18  
**Fund Size** R 13 886 million  
**Inception Date** Apr-99

## Fund objective

This is a flexible asset allocation fund which aims to deliver smooth, positive real returns (adjusted for the effects of inflation) targeting CPI + 4% over a rolling 3 year period. The fund is managed in accordance with Reg. 28 guidelines, although this is not a stipulation in the investment policy of supplemental deed.

# Satrix (SWIX) Balanced Tracker Fund

**Period Ending** 28-Feb-18  
**Fund Size** R 1 292 million  
**Inception Date** Sep-08

## Fund objective

The portfolio invests in tracker equity and bond indices, locally and abroad, and also cash to create a moderate risk balanced portfolio which is expected to perform close to the underlying indices without incurring active management costs. Scrip lending may be performed on the passive

## Risk profile

This fund has a moderate-aggressive risk profile.

## Fees

### South African assets:

0.38% per annum

### International assets:

0.30% p.a. on international equities

0.25% p.a. on international interest bearing assets

The domestic equity component tracks the SWIX Index. Scrip lending is permitted in respect of this basket of shares, and the resultant income (net of associated costs) is periodically rebated to clients participating in this portfolio, and effectively serves to reduce the quoted management
