# Sanlam Unity Umbrella Fund

## Mandate description

Sanlam Unity Umbrella Fund (known as "The Fund") aims to achieve good investment growth at an acceptable level of risk. The Fund is designed for members with low tolerance for negative annualised returns and consists of an allocation to a volatility protection strategy and a low cost tracker solution.

This Fund currently utilises the underlying investment portfolio Sanlam Stable Bonus portfolio in order to achieve their objectives.

The Fund strategy is positioned well for members who wish to achieve inflation beating real returns over the medium to long term, but who are particularly concerned about protecting against significant short term investment losses. The 100% allocation to the Sanlam Stable Bonus portfolio offers investors stable, smoothed returns with a partial guarantee on benefit payments. A bonus, which consists of a vesting and non-vesting component is declared monthly in advance. Bonuses cannot be negative. The portfolio offers 100% capital guarantee and partially vesting bonuses.
